Village of Hatley Receives Funding for Senior Housing Development Project

MADISON –Today, State Representative Patrick Snyder (Schofield) released the following statement in response to the Village of Hatley being granted \$382,250 to make improvements to a local senior housing facility.

“I am pleased to hear Governor Walker and Secretary Neitzel, Department of Administration, have selected the Village of Hatley to be a recipient of a Community Development Block Grant. This funding will give Hatley the opportunity to continue to support their senior citizen community by making improvements to a local senior housing complex.

“The Village of Hatley has put in tremendous effort to prepare and apply for this funding. It is with no doubt that these infrastructure renovations will help this community continue to grow and serve our seniors.”

The Community Development Block Grant was awarded to 38 Wisconsin communities to help cities fund community projects that benefit low-to-moderate income residents. The funding is awarded through the Department of Administration’s Division of Energy, Housing and Community Resources.
